

BLUE BOAT HOME

## LIMITLESS ESCAPES

The owner's directive was simple – “It has to go fast and it must be beautiful!” For this, the first Burger 48 Cruiser, we obliged with a custom alternative to production boats.

# INTRODUCING BLUE BOAT HOME

Delivered in June 2018, Blue Boat Home is powerful enough to cruise comfortably at close to 27 knots, beautiful enough to do so with style and grace, and personal enough for her owner to chart unlimited adventures. This Burger 48 Cruiser combines Vripack's® revolutionary Slide Hull® and a custom designed interior by Celeste Wegman Interiors with Burger's renowned technology, engineering and quality craftsmanship.

As true partners, Burger worked hand-in-hand with the owner to deliver this unique, artistically crafted yacht.

# FREEDOM & LUXURY

The Burger 48 Cruiser is designed to allow her owner to feel at home on the water. Her expansive retractable sunroof, side-opening windows and double salon doors bring the outside in. Two luxurious staterooms, each with ensuite heads, provide the perfect getaway. Stainless steel and teak details accent her exquisite lines and give her owner the Blue Boat Home they had always dreamed of.

As perfect for a getaway as she is for entertaining, she evokes all of the fun and excitement of the classic yachting experience.

## UNLIMITED MODERN CONTROL

This yacht was designed to give her owner a technological marvel. Vripack's, patented Slide Hull®, powered by twin Volvo Penta D8 IPS800 engines, provides a cruising speed of approximately 27 knots in comfort, style and enhanced maneuverability. She has everything her owner needs to comfortably break the status quo.
