

BURGER
BOAT COMPANY
MANITOWOC WI USA

Burger Boat Company has seen many changes throughout its 156 years of business. Even with these changes, Burger's core values; integrity, honesty and commitment, have remained consistent. As a result, every project Burger is involved in reflects the passion of the employees and the loyalty they have for each customer, making Burger a natural fit for the construction, maintenance, repair and refit of your commercial vessel.

I'm proud of the Burger heritage, but even more proud of the employees that make it all possible.

Mr. Jim Ruffolo
President & CEO

Burger Boat Company

Burger Boat Company is an established yacht builder that also specializes in the design, engineering, construction, refit, repair and maintenance of commercial vessels. Founded in 1863, Burger has a long tradition of constructing a wide range of vessels to meet the most demanding requirements. The Burger shipyard is a full-service facility located in Manitowoc, Wisconsin on the western shore of Lake Michigan.
